That the former has always been the case we shall prove more clearly hereafter by further illustrations; that the latter may always continue to be the case we can only wish with fervent yearning. More ominous than the military collapse of Prussia and the other German states was the concomitant decline in German morale. Unfortunately Fichte showed most of the characteristic defects of these good qualities.

## Addresses to the German Nation

The command model involves training people to a high standard, giving them general directives as to what they are to do, and letting them exercise their judgment and initiative in executing directives. These, and with them all the after-ages of humanity, trust in you. That the reformation of the Church was first brought before the people, and that it succeeded only because it became their affair, we have already seen.

The Library of the Worlds Best Literature. Citing government sources, national broadcaster ARD said Merkel wanted in pre-recorded remarks to update Germans about where the country stands and remind them of what they can do to help slow the spread of the illness.

## Addresses to the German Nation by Fichte

Those plead with us by the common soil of our Fatherland, the cradle of their infancy, which they have left to us free; these, by the culture which they have accepted from us as the pledge of a higher good, to maintain for their sakes the proud position which has hitherto been ours, to guard with jealous watchfulness against even the possible disappearance from the great confederation of a newly arisen humanity of that member which is to them more important than all others; or that when they shall need our counsel, our example, our co-operation in the pursuit and attainment of the true end of this earthly life, they shall not look around for us in vain. This pro-French painting, by Charles Meynier, scarcely exaggerates the acclaim turncoat Berliners showered on the emperor. ### **Addresses to the German Nation/Introduction**

It is they whom we must thank — we, the immediate heirs of their soil, their language, and their way of thinking — for being Germans still, for being still borne along on the stream of original and independent life. Hitherto our struggle has been deemed noble, great, and wise; we have been looked upon as the consecrated and inspired ones of a divine world-plan.

### **Fichte: Addresses to the German Nation**

INTRODUCTION was born on May 19, 1762, at Rammenau, a little village in Upper Lusatia between Dresden and Bautzen. May this challenge be of some avail in bringing out right soon a German man equipped to perform this preliminary task! It was in this way that the light fell upon the soul of the German man, Luther. In so far as this belief was well-founded, and they themselves would have comprehended it if they had been entirely clear in their own minds, it did not deceive them.
