## Education Longitudinal Study of 2002 (ELS:2002)

The ACS uses a rolling sample of U. Once the GTN intervention was implemented, its groups met regularly monthly for health promotion activities.

### SERP

Please refer to Neumark and Wascher for the most extensive survey of employment effects; Card ; Card and Krueger , , ; Neumark and Wascher , ; Williams for U. These include community-level market and policy shock variables derived from the detailed community histories and the intent-to-treat exposure variables derived from the original nutritional supplementation intervention, as well as an indicator for having been born just prior to the 1976 earthquake.

## Education Longitudinal Study of 2002 (ELS:2002)

The effect of HAZ on verbal skills, however, is less robust to changes in the methodology. Note that migration of a nuclear family member is not a necessary condition to remittance reception, as relatives and friends commonly send income from abroad to one or more nuclear family units. While in the last decade the share of public funding for these levels of education has decreased slightly, the broad pattern is remarkably stable.

### Rural and urban areas: comparing lives using rural/urban classifications

Economic status, education and empowerment: Implications for maternal health service utilization in developing countries.

### Minimum Wage Increases May Explain Decline in Teen Employment

Despite all these worldwide improvements, some countries have been lagging behind, mainly in sub-Saharan Africa, where there are still countries that have literacy rates below 50% among the youth.
