## Science, ethics guidelines, and advocacy in epidemiology

The scope of these obligations in terms of the beneficiaries and the period is however limited to those participating in research, and for the period before interventions are proven to be effective or introduced into the health care system.

## Ethics in practice: the state of the debate on promoting the social value of global health research in resource poor settings particularly Africa

Proceedings of the XXVIth CIOMS Round Table Conference, Geneva, Switzerland, 5-7 February 1992. Battered Children and Child Abuse. Conclusion Although in theory benefit sharing is widely accepted as one of the means for promoting the social value of international collaborative health research, there is less agreement amongst major guidelines on the specific responsibilities of researchers over what is ethical in promoting the social value of research.

## Bioethics

Proceedings of the 11th CIOMS round table conference; 8—9 December 1977; Geneva. Florkin, CIOMS, Paris, 1968 109 pages, English, French.
