Its shortcomings are those of societal reaction theory generally: its inability to explain the sources of suicidal impulses and to generate testable hypotheses about the effects of labelling.

1.1 The Sociological Perspective

Christians often assume that suicide is an unforgivable sin and that those who die by suicide automatically go to hell. They may stand holding a gun looking in the mirror or on a balcony ledge, trying to figure out what was going on in their mind. Access to the means for suicide should also be noted.

Suicide in the Young: An Essay

Early research shows it rapidly improves symptoms, and actually appears to heal the brain.

ERLC

How can one possibly get competent help if your number one bullet point is false? Learning theory would direct attention to neutralizing' the effects of a suicide on others. Such studies should be conducted with research designs and measures that touch on the etiopathogenesis of suicidal behaviors, as described throughout this report.

New in 2021: Looking for new perspectives on combating suicide

While each center might be able to obtain a sufficiently large sample for studies in the general population, a consortium of centers will be necessary to fully explore differences based on region, economic environment, culture, urbanization, and other factors that vary across the country.
