There is a reason Last Mountain Lake is North Americas oldest bird sanctuary, if it migrates thru the central flyway we will hunt them.

Birds Canada

Google Translate Disclaimer A number of pages on the Government of Saskatchewan's website have been professionally translated in French. This change is multifaceted and has an impact not only on the fabric of culture and its perception of landscape, but also on the ecology and physical landforms. The 27 color plates splendidly illustrate the various plumages of each species with the emphasis on the distinctive appearance of birds of different sex, age, and geographic regions.

They serve as a measure, but they are not intended to be relied upon for buying, selling or exchanging. The species accounts are illustrated with range maps and superb line drawings showing behavioral postures and, where useful, fine features of tail feather patterns. The vast areas of natural habitat with limited road access can make the study of birds challenging, but are key in defining the nature of birding in the Yukon.
