## Boat Propeller Selector Guide

Storing Your Inflatable Boat Making sure your boat lasts long enough to enjoy is probably important, right? Check the paperwork carefully, and if the boat is stored at a yard or marina, remember to ask the manager if there are any outstanding bills or liens on the boat. The idea with these new craft is to sacrifice some of the aesthetic appeal and more often than not a little sporting ability in order to take the beam further forward and create more internal seating.

## Is living on a boat right for you? 10 things you should know

Once you provide the specifications on your engine, we will display all of the propellers that fit your engine. It's been said that the Internet has been largely responsible for creating better informed consumers. If your boat is particularly heavy for its size, or the conditions you moor in are or will be particularly harsh, use larger, heavier duty fenders than called for in sizing charts.

## Choosing the Correct Boat Propeller

That depends, but if this is a major purchase it's important to dig deep, beyond what the seller wants you to see—especially if you're trying to figure out why a particular deal looks a little too good to be true. This reduction in pitch is perfect for tow sports, such as water skiing, due to a slower acceleration and higher power. If a sailboat, do you want a monohull or catamaran, and how many masts? Do your kids have plans to water-ski and wakeboard? Hang fenders vertically when mooring against docks or other flat structures; hang fenders horizontally to fend against protruding structures such as pilings and prevent roll-off.
