The MegaSquirt® EFI Controller has a faster clock speed, coupled with direct assembly language programming, which give the MegaSquirt® EFI Controller its power.

persongroup.materialsproject.org: Customer reviews: Fuel Injection: Installation, Performance Tuning, Modification (Motorbooks International Powerpro)

The philosophy for the MegaSquirt® EFI controller system is simple: provide a controller for fuel injectors which can be adapted to any application, without having to write embedded code or understand the details of engine controls. Another side effect is the changes will not work completely for transitional modes. DDP AB-2 - Approximately 75-100 RWHP over stock.
