Additionally, a rhythm strip may be included as a fourth or fifth row. As noted earlier, the ST-segment depressions and T-wave inversions summarized previously are especially diagnostic of an acute coronary syndrome if they are present in two or more contiguous leads. The patterns of the Brugada syndrome have a tendency to show spontaneous variability in addition to fluctuations caused by multiple different medications and changes in sympathetic-parasympathetic balance Huang and Birnbaum ; Birnbaum, 2014; Pollak and Brady.,
