### Basic skills in sports for men and women (1971 edition)

Men, on average, can more easily juggle items in working memory. Gender politics and science have never gotten along very well.

### Men and Sports: Science Explains Why Men Love Sports

Golf courses for the PGA Tour are 7,200 yards long on average; LPGA courses average 6,500 yards. Fewer people watch or attend; the sports generate less revenue, and the WNBA is somewhat dependent on subsidies from the NBA. Each page is checked manually before printing.

### How men's and women's brains are different

Overall, three times more males finish the race within 125% of the record time for their gender than females do for theirs, which suggests that the men were more focused on running to win than the women were.

### Basic skills in sports for men and women (1971 edition)

~ ThriftBooks: Read More, Spend Less.

### A Sporting Difference: On Men's and Women's Athletics

How our brains differ The neuroscience literature shows that the human brain is a sex-typed organ with distinct anatomical differences in neural structures and accompanying physiological differences in function, says UC-Irvine professor of neurobiology and behavior Larry Cahill, PhD.

### Basic Skills in Sports: for Men and Women by Armbruster, Irwin, And Musker

The research, led by psychologist Robert Deaner of Grand Valley State University in Michigan, was more of a deep analysis of decades worth of other research, which is often the best way to get a high-altitude view of any social science.
