Powder Shortage Statement

Even with wood-to-wood, you can create a static discharge, especially if the humidity is very low. The smaller the grain size, the faster it burns. There were many explosions, and loss of life.

Gunpowder Basics

I love the rifle, but it is a little brutal to shoot after a while.

Smokeless Powder for Sale

Imagine the great tied to this simple mixture of sulfur, carbon and potassium nitrate.

Pistol Powder for Reloading

For instance: A former powder maker went downstairs and flipped his light switch on. Burned owner and total house burned up.

Pistol Powder for Reloading

Seal the lid well and make a couple of small holes in the lid. He borrowed it, believing that his own Sharps. Granulation will speed up your powder too if it will let flame propagate faster through the powder.
