## 3 Ways to Act when Near a Coyote

Image credit: Jason Klassi via Getty Images Coyotes are not picky eaters. A pack of coyotes when hunting will utilize the pack, terrain and often speed to take down a larger animal, they will often share it the rewards of the hunt and share the larger amount of food. Here are more ideas on - prevention techniques.

## 3 Ways to Act when Near a Coyote

And keep the area clear of food, trash, etc. This overlapping representation makes for some interesting plot twists, not to mention confusion on who's wearing which hat in any one scene.

## Coyotes: Facts about the wily members of the Canidae family

This site provides many coyote control articles and strategies, if you wish to attempt to solve the problem yourself.

## Border tour: Senators heckled by 'coyotes,' Biden officials tried to block photos

In cities and other urban environments, coyotes have been known to modify their day and night cycle to better avoid humans and traffic.
