A call for a sustainable future society

He saw government as having important functions in regulating market forces and remedying or alleviating the problems they produced.

India Future Society

Clear sustainability requirements, deployed systematically, are needed to accelerate the shift towards sustainable economic growth.

Future Society

Cinematographer employed vibrant gold, green, and electric blue tones throughout the film, and shot the film in , which adds an enlarged layer of grain. The best case against germ-line theory may in fact lie in looking at the possible consequences of germ-line therapy on future society. Transparency and Reporting Measure and report on gender balance in top 3 management levels of public institutions and state-owned entities, for example through the use of verifiable methods, such as Bloomberg, SHE Index, GemmaQ, etc.

Ocean Futures Society

Recognising the challenges, we understand that therein also lies opportunity and that the Nordic region should lead by example. They are likely to be very expensive, and certainly when first available. When I first started working with computers there were Heath Kits that allowed you to build and assemble your own personal computer.

Digital Future Society

Alois Paulin, in , 2019 Abstract Nonmediated governance is a concept for a future society in which no human mediation is required for interaction between citizens and authorities.

Ocean Futures Society

Authors of the mid-20th century were first to envision futuristic societies in which people lived in a repressive and controlled state that only from

the outside resembled a Utopia. Their works paved the way to the numerous other authors, who even today manage to envision some new aspect of life in dystopian societies.

10 Predictions About the Future That Should Scare the Hell Out of You

While information technology has grown very fast, the irony is that even with all our high technology, we live in a disturbed world — a violent world and we are destroying the world, our only habitat in the present. It summarizes the case of ŠOFIŠ, an association that served for early prototyping of nonmediated governance, and describes the main conceptual tools of governance informatization—the PACT question, and the key:lock paradigm. This implies that people of different ages will have different time preferences which are all subject to probabilities.

The Future Society

There is also inadequate housing, energy, water, and sanitation.
