Osteoporosis Osteoporosis can now be prevented and treated with a number of approaches that do not involve estrogen or progesterone.

**Breast cancer guidelines**

If you have breast cancer, your healthcare team will create a treatment plan just for you. Your healthcare team will work with you to decide on follow-up care to meet your needs.

Follow

Randomized controlled trials are required to guide recommendations for this group of women. If menopausal symptoms are particularly troublesome and do not respond to alternative approaches, a well-informed woman may choose to use HRT to control these symptoms after discussing the risks with her physician.

**Breast cancer guidelines**

For the suggested alternatives to HRT that can be considered by women with breast cancer, we reviewed the highest level of evidence available but did not conduct a comprehensive systematic review of the literature.
