

# Quality of education in Ontario - a survey of the parents perspective

The Group - Teachers concerned about their health, quality of education as they deal with challenges of COVID

A. Perception that there is a learning need at a universal level
<ul style="list-style-type: none"><li>Assumptions:<ul style="list-style-type: none"><li>• Parent education is feasible at a population level</li><li>• Parents will experience difficulties in some aspect of parenting</li><li>• All parents can benefit from parent education</li></ul></li></ul>

B. Designing the program to meet the perceived lack of knowledge
<ul style="list-style-type: none"><li>Assumptions:<ul style="list-style-type: none"><li>• parents have the desire to learn</li><li>• who decides what the program should involve</li><li>• the cost of the program</li></ul></li><li>Assumptions:<ul style="list-style-type: none"><li>• A parent education program can be designed to meet the perceived knowledge gap</li></ul></li></ul>

C. Delivery of the program
<ul style="list-style-type: none"><li>Assumptions:<ul style="list-style-type: none"><li>• design</li><li>• program is delivered as designed</li><li>• people are available and willing to teach it</li><li>• people are available to teach it</li><li>• people have learned new skills and feel confident to try those new skills</li></ul></li><li>Assumptions:<ul style="list-style-type: none"><li>• Parents will attend all components of the program</li></ul></li></ul>

D. The program will be effective
<ul style="list-style-type: none"><li>Assumptions:<ul style="list-style-type: none"><li>• program delivers what it says it will (fidelity)</li><li>• parents are satisfied with the program</li><li>• parents have learned new skills and feel confident to try those new skills</li></ul></li><li>Assumptions:<ul style="list-style-type: none"><li>• Parents will value, believe, and remember the information they receive through the program</li></ul></li></ul>

E. Parents will use this new knowledge or new skills to change their parenting behaviour in a positive way
<ul style="list-style-type: none"><li>Assumptions:<ul style="list-style-type: none"><li>• Parents will use this new knowledge to change in their behaviour</li></ul></li></ul>

F. New parenting behaviour will positively affect child development
<ul style="list-style-type: none"><li>Assumptions:<ul style="list-style-type: none"><li>• The change in the parents' behaviour will cause improvements in their child's behaviour</li></ul></li></ul>

## Assessing Quality in Higher Education

This is dependent on what you want to know, but here are a few tips. NPS only has two simple questions. Create a survey and send it out to the families at your centre.

## Middle

Divorce rates, teenage pregnancy rates Amazingly, the divorce rates in the United States are declining. It focuses heavily on input and reputational measures, uses retention as its sole outcome measure, and makes no effort whatsoever to assess value added.

## People For Education Tip Sheets

How can a governor or legislator come to terms with the effectiveness of the education offered within a state? We will not be able to adequately assess the various competencies simply with multiple-choice tests.

## 40 questions to help develop a survey to evaluate your service

In most cases, parents would have not completed secondary or postsecondary education, creating a divide in the academic support they can provide, especially when compounded with economic factors. Such an approach focuses, that is, on processes and participation rates. Why an annual survey of schools? Although collectively Democrats placed a higher importance on sex education in both middle and high school than Republicans, a majority of Republican parents found it very important to include sex education in both middle and high school.
