OCLC Classify

The classification numbers applied to books and other materials are used to arrange items on shelves and to support browsing, filtering and retrieval of bibliographic information in online systems. Libraries add bibliographic records to WorldCat representing books and other items in their collections. FAST headings provide additional subject information about a work and enable you to search the Classify database by subject.

OCLC Classify

Thirteen-digit ISBNs must begin with either 978 or 979.

Browse the Collection Alphabetically

ISSN An ISSN is a standardized international code which allows the identification of a serial publication. Classification schemes are used to provide a systematic arrangement of materials.
