## Aging and Engaging: A Pilot Randomized Controlled Trial of an Online Conversational Skills Coach for Older Adults

Pupil Diameter and Load on Memory.

## Books on Blindness and Vision Impairments

Her optic disc was reported to be normal in appearance, and she was considered to have retrobulbar optic neuritis.

## Individualised sensory intervention to improve quality of life in people with dementia and their companions (SENSE)

There is mention of grocery stores and supermarkets, so there should have been some stocking in pantries. Dorie 2015 Broustovetskaia, Alexandra 2015 Brouwer, Matthew D 2015 Bruhl, Jakob C 2015 Brust Fernandes, Tarsis 2015 Bubna, Mayur 2015 Buda, Geeta 2015 Bueno, Amy N 2015 Burgess, Michael Keith 2015 Burke, Nicole L 2015 Buschhagen, Timo 2015 Bushner, Anthony James 2015 Byrd, Christopher J 2015 Cai, Chao 2015 Cai, Jie 2015 Caixach, Ariadna 2015 Calvert, Scott L 2015 Camp, Kevin M 2015 Camsari, Kerem Yunus 2015 Candranegara, Glenn 2015 Canter, Meghan A 2015 Cao, Jiajun 2015 Cao, Xiang 2015 Cao, Yankai 2015 Cao, Yuanzhi 2015 Cao, Yunfeng 2015 Carbajal, M.

## Aggressive Glioma of Adulthood Simulating Ischemic Optic Neuropathy

CONSTRUCT: AROUSAL GENERAL ISSUES: The task of recommending paradigms to assess arousal presented the ARS subgroup with a number of challenges. The trial will adhere to GCP and standard operating procedures SOPs of SENSE-Cog for all trial and data management, statistical and regulatory matters. Hearing loss and incident dementia.

## **Professor Annalena Venneri**

The clinical use of the MSLT and MWT. The suggested constructs listed above are highly relevant for severe mental illness, have well-studied neural circuits, and are not represented in other domains of the RDoC.

### **Theses and Dissertations Available from ProQuest**

R ESULTS As part of our examination of whether the Sobel—Goodman criteria for mediation are met Mackinnon et al. Sex Differences in Autonomic Correlates of Conduct Problems and Aggression.

### **Theses and Dissertations Available from ProQuest**

Research Bulletin of the American Foundation for the Blind, June, 123—128. The handful of studies that have explored this issue focus on a single explanation rather than on a more comprehensive set that would allow an assessment of their relative contributions. When we close our eyes—it is the little nightly crisis of sleep—we darkly falter, in the gloom of self-cancellation: perhaps we no longer exist.

### **Social psychological aspects of blindness: A review**

Nelson and Peter Lurie, M. Resting vagal activity in schizophrenia: Meta-Analysis of heart rate variability as a potential endophenotype.
