This is how Raphael himself, who was so rich in inventiveness, used to work, always coming up with four or six ways to show a narrative, each one different from the rest, and all of them full of grace and well done. He is currently accepting new patients and referrals are not required.

### Rafael Roman

It has been claimed the Flemish worked for Raphael for a time, and , brother of Gianfrancesco and later a member of the , may have been a member of the team. But the most striking influence in the work of these years is , who returned to the city from 1500 to 1506. It was on an irregular island block near the river Tiber.

### Rafael Roman

May flights of angels sing thee to thy rest. According to a journal by , four cardinals dressed in purple carried his body, the hand of which was kissed by the Pope.

### PTF Executive Committee Member, Rafael Roman

Several other possibilities have been raised by later historians. In mediæval art, thought is the first thing, execution the second; in modern art execution is the first thing, and thought the second. He was soon seen as the ideal model by those disliking the excesses of Mannerism: the opinion
