You may need to take off any jewelry, glasses, and hearing aids. Please contact the rights holder of this image for permission requests. You will be able to talk to the technologist through a two-way intercom.

## Computed Tomography of the Head and Neck, Radiology

Review provided by VeriMed Healthcare Network. Case 1, a 14-year-old female with embryonal rhabdomyosarcoma in the ethmoid sinus. In areas of high inherent or subject contrast, the increased noise is less problematic because contrast in voxels at the edges of neighboring structures of interest is likely to be far above background noise.
