I already contacted a school there. Joseph Wyatt's 2002 report concluded that the so-called tunnels under the preschool were more plausibly explained as a series of adjacent rubbish pits used by the owners of the site before the preschool's construction in 1966. When she called the centre, one of the employees, identified only as Teacher L, initially denied that anything had happened to the girl.

Cognitive Behavioural Therapy CBT is frequently referenced within NICE National Institute for Clinical Excellence guidance and is a recommended psychological therapy for a number of different mental health disorders for both adults and children. This includes children who die abroad or in another part of the country, and excludes stillborn babies. Following an internal investigation by PCF and an independent investigation by the Early Childhood Development Agency ECDA , the two employees involved were suspended.

## Investigation

It supports the documentation of child deaths and identification of patterns in a community so that any preventable hazards may be identified and reduced. Redacted versions of these documents were released by the FBI in 2019.
