## 20 predictions for the next 25 years

This methodology is followed for each of the 49 census divisions.

### Changes in temperature

The average age-sex distribution pattern for immigrants observed over the past five years is assumed to remain constant over the entire projection period. After 2031, the growth in the number of seniors slows significantly. The population of Northern Ontario is projected to be relatively stable over the projection horizon, with a slight increase of 1.

### The 25 Best Coastal Cities in the World

The variance and skewness of fertility distributions at the census division level evolve over the projection period following the same absolute changes of these parameters at the Ontario level. The median age for women climbs from 41.

### Canada in 2050: a land of climate

Will Hutton, executive vice-chair of the Work Foundation and an Observer columnist 3 Global development: 'A vaccine will rid the world of Aids' Within 25 years, the world will achieve many major successes in tackling the diseases of the poor.

### Canada's 10 Most Famous Cities

Will we have reached the singularity — the point at which computers surpass human intelligence and perhaps give us our comeuppance? The colours on the map indicate the amount of projected change. Its share of population is projected to initially decline from 27. In 2020, non-Hispanic white people, hereafter called whites, are still the majority race in the U.

#### • Canada

Over the long term, the number of immigrants increases over time as population grows, such that annual immigration is projected to rise to 180,400

by 2045—46, in tandem with overall provincial population growth. Immigration to Ontario is projected to increase from 127,000 in 2019-20 to 180,000 in 2045-46 in the reference scenario, from 148,000 to 249,000 in the high scenario, and from 105,000 to 125,000 in the low scenario.

## **12 major American cities that are shrinking**

More than 60 per cent of Toronto's population will belong to a visible minority in 20 years.

## **Canada in 20 Years**

And I can't see that that trend will reverse. But are there animals and plants whose habitats will expand in a warmer world? Facebook and Apple are spawning cloud capitalism, in which consumers allow companies to manage information, media, ideas, money, software, tools and preferences on their behalf, holding everything in vast, floating clouds of shared data. And, after a century of trying, Britain will at last build itself a system for developing apprentices and technicians that is no longer the Cinderella of the education system
