## Nutrition and the health care agenda: a primary care perspective

In order for that to happen, there has to be awareness of the past.

## Primary Care Nurses Of Ontario

Data extraction and quality assessment Two reviewers independently abstracted data from the included reviews using standardized piloted forms.

## Health advice and education given to overweight patients by primary care doctors and nurses: A scoping literature review

They emphasized the special nature of home care compared to hospital care.

## Department of Health

PWD and the characteristics of the health care system. Ottawa: Canadian Health Services Research Foundation; 2009. The evidence presented paints a picture of a lack of conviction of the role of nutrition in prevention activities, inconsistent knowledge levels and levels of involvement in prevention activities that are less than ideal.

## Organizational interventions improving access to community

Special reference was made to the needs of those working in primary care.
