Are You Really Hungry? How to Tell if You're Hungry or Just Bored

Summary Refined carbs lack fiber and cause blood sugar fluctuations, which are the primary reasons why eating too many of them may leave you feeling hungry.

Hunger Before Period: The Real Reason You Can't Stop Eating

In one study, 15 people who were sleep deprived for only 1 night reported being significantly more hungry and chose 14% larger portion sizes, compared with a group that slept for 8 hours. Symptoms include hunger as well as a rapid heartbeat, sweating, an enlarged neck and tiredness. I challenge you to try to keep track each time you eat this week.

How to Know if You're Really Hungry

They feel shaky, headachy, weak, or suffer from abdominal cramps or spasms.
