## History Dept Home :: History Department :: USNA

The surface fleet fought with the defence of the city and bombarded German positions. In 1819, Congress authorized President James Madison to deal with this threat, and since many of the pirates were privateers of the newly independent states of Latin America, he decided to embark on a strategy of diplomacy backed up by the guns of the Navy.

## International Journal of Naval History

The British finally took action, dispatching and to stop the Essex. Despite opposition from the U. American merchant ships had ventured to those shores before an American warship ever came calling.

### **Naval History Blog**

The Navy gradually developed a reputation for having the most highly developed technology of all the U. At 300 feet in length and 1500 tons, they were twice as big as the German U-boats, but still highly maneuverable.

### **Family History**

Washington quickly accepted Japan's apologies and compensation. The remainder of the ships in service were sold and the dismissed officers were given four months pay. The Vichy government was angry indeed but did not retaliate and maintained a state of armed neutrality in the war.
