Strengthening intergovernmental arrangements for sustainable development 77. We emphasize the importance of increasing the number of metropolitan regions, cities and towns that are implementing policies for sustainable urban planning and design in order to respond effectively to the expected growth of urban populations in the coming decades.

**Here's what happens at the UN General Assembly when world leaders have gone home**

We encourage the enhancement of the United Nations regional commissions and their subregional offices in their respective capacities to support Member States in implementing sustainable development.

**Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on their Destruction**

The Committee thus concluded its consideration of agenda item 181. JEWISH DISPLACED PERSONS It is recommended that The General Assembly undertake immediately the initiation and execution of an international arrangement whereby the problem of the distressed European Jews, of whom approximately 250,000 are in assembly centers, will be dealt with as a matter of extreme urgency for the alleviation of their plight and of the Palestine problem.

**Treaty bodies Sessions**

Restaurants will continue to rely on take-out as capacity will reduce without patios this winter and dining in is limited to allow for physical distancing. The economy of Palestine presents a fascinating study, both because of its rapid development as an area of mass immigration and because of peculiarities in structure due to the lack of homogeneity between the two major elements of the population.

**Main Committees**

Copies of treaty, protocol, and conventions, 1922-23. We reiterate the importance of human resource development, including training, the

exchange of experiences and expertise, knowledge transfer and technical assistance for capacity-building, which involves strengthening institutional capacity, including planning, management and monitoring capacities.

### **Summaries of meetings — Seventy**

- Digitize — procure small and medium enterprises to support virtual health care and other digital public sector efforts. Business owners described offering refunds while losing revenue in the form of membership fees and pre-bookings.

### **Economic and Financial Committee (Second Committee)**

#### **Charter of Economic Rights and Duties of States**

We reaffirm our commitment in the Johannesburg Plan of Implementation to eliminate subsidies that contribute to illegal, unreported and unregulated fishing and overcapacity, taking into account the importance of this sector to developing countries, and we reiterate our commitment to conclude multilateral disciplines on fisheries subsidies that will give effect to the WTO Doha Development Agenda and the Hong Kong Ministerial Declaration mandates to strengthen disciplines on subsidies in the fisheries sector, including through the prohibition of certain forms of fisheries subsidies that contribute to overcapacity and overfishing, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the WTO fisheries subsidies negotiation, taking into account the importance of the sector to development priorities, poverty reduction and livelihood and food-security concerns. Textual Records: General records, December 1953. We stress that fighting corruption and illicit financial flows at both the national and international levels is a priority and that corruption is a serious barrier to effective resource mobilization and allocation and diverts resources away from activities that are vital for poverty eradication, the fight against hunger and sustainable development.
