## A roadmap for a digital transformation

Make a greater allocation of funds for education in the Highlands, the Borders and other country areas. We recommit to broadening and strengthening the voice and participation of developing countries — including African countries, least developed countries, land-locked developing countries, small-island developing States and middle-income countries — in international economic decision-making, norm-setting and global economic governance. The new Goals and targets will come into effect on 1 January 2016 and will guide the decisions we take over the next fifteen years.

Frustratingly, it also appears that the frequency of organizational redesign reflects a high level of disappointment with the outcome.
